

Assignment: Photography Presentation

Due Date: August 24, 2025

Instructions: Together with your partner, create a 4-7 minute slide show presentation of your photographs . Team members should work together to choose photographs depicting the following elements: two portraits, two landscapes, two still-lives, two in-motion shots, two architecture and two photographs of the artists' choice. Each person must submit the same number of photographs, but you do not have to submit a photograph for each category. Each partner should introduce their own photograph and be prepared to discuss and describe their work. Discussion *could* include why that photograph was chosen, any challenges/preparation in creating the shot, location, artistic elements demonstrated in the shot (i.e. lighting, placement of subject, mood, theme, intent, etc.). PowerPoints should be uploaded as a pdf and emailed to your instructor(s).

Photography Presentation Rubric
